MAKE YOUR VOTE COUNT TO END THE WAR IN VIETNAM!

We see the question of the Vietnam War as relevant to the New York City Elections. This city could be reduced to atomic rubble if the Vietnam War is escalated to H-Bomb levels. The doubling of the draft increases the number of men from our homes who will be called to add their lives to the mounting casualties in Vietnam. The federal spending of over \$3 million a day in Saigon takes money that could otherwise be spent in a real war on poverty that could eliminate unemployment in New York City.

A protest vote against the war in Vietnam is an important addition to the mounting expression of opposition to the Vietnam War. This opposition, so clearly voiced in the many demonstrations and teach-ins, should be followed up with opposition at the polls.

The Socialist Workers Party slate headed by Clifton DeBerry for Mayor is focusing its election campaign on the need to withdraw all U.S. troops from Vietnam. For this reason, a vote for Clifton DeBerry for Mayor and for the rest of the Socialist Workers Party slate will be counted as a vote to End the War in Vietnam. A significant protest vote can contribute to the building of the mass opposition that can end the Vietnam war.

It is on the basis of the Socialist Workers Party's election campaign of opposition to the Vietnam War that we, the undersigned, who are not members of the Socialist Workers Party and do not necessarily agree with other planks in its program, call for a vote for Clifton DeBerry. In this campaign a vote for the Socialist Workers Party is a

VOTE TO END THE WAR IN VIETNAM!
